OLIVIER TALLEC

A new act of love for his tree from Olivier Tallec's squirrel.

UN PEU BEAUCOUP

A LITTLE, A LOT

A tree is fragile—you have to take care of it. You need to treat it like a friend. My tree and I take good care of each other. Sometimes it gives me one of its pine cones. One of them is not much, but be careful: all of them are a lot. You need to find the right balance. But even if someday there are no more pine cones on the tree, it will still have its needles, branches, and roots.

AFTER MIDNIGHT (BOOK 1)

TOO MUCH SALT IN THE SPAGHETTI

It all started after my dad put too much salt in the spaghetti. My little sister, Rosalie, and I had woken up thirsty in the middle of the night when we suddenly heard a noise. Even though Rosalie is only little, we crept outside to take a look. And that's how we discovered that our next-door neighbor (who is also our teacher) is a werewolf! And believe me, a werewolf wearing a flowery dress and lavender perfume is strange to say the least! But that's just the tip of the iceberg. Let me tell you what happened next...

8 years ago, Samsara survived the Apocalypse and all of the upheavals that followed. Now she faces a new challenge: the city of Concordia has just lifted the quarantine for the old public park and is preparing to welcome its inhabitants, who are said to have mutated. The twins in Sam's class appear to be a perfect example. Before long, anyone who ever made fun of them or pushed them around falls victim to unexplained incidents.
