OPENING EYES TO SEXISM

Bitter, hairy, aggressive, ugly, lesbians (or worse, single!): it can be tough to get past the clichés surrounding feminism. But what does "being a feminist" mean today? This colorful, funny, and demystifying graphic novel invites readers to deconstruct the norms and preconceptions about feminism one after the other in order to open their eyes to the spectrum of what it means to be a feminist.

# THE BIG ANIMAL PARADE

Who knew? Frogs aren't always green and not all birds fly. Some animals are blue, while others are albino. Some baby animals look nothing like the adults they'll become, and some males and females of the same species look completely different. Some hibernate or are nocturnal, and others have long hair or a mask! Julie Colombet groups animals by their surprising and bizarre traits, like silly family portraits, inviting us to observe their behaviors and appearances in extraordinary detail. In fact, the animals seem to be staring back at us with their big, round, white eyes—the signature trait of this celebrated animal illustrator.

## WHEN IS HADDA COMING BACK?

When is Hadda coming back?  
But I am here, my dear child, you bear my sun...  
When is Hadda coming back? But I am here, my chickadee,  
learn! You have my wings... The sardine tins in the kitchen,  
the plants on the balcony, the shoe corner by the door, the  
tiles on the floor, the curtains... Wherever you turn, every-  
thing reminds you of Hadda. She is there and everywhere  
through your eyes. She is in you.
