# Le Verger des Hespérides

All of our series aim to be an open door to the world, past and present; a bridge between cultures that, at first glance, appear to be very different. We offer short readers for beginners, with stories that are both funny and touching, and historical or fictional adventures and biographical narratives for a wide age group, from early teens to their parents and grandparents. A series of tales from all over the world, gathered at the source from families living in the selected countries, invites you to travel and dream without leaving your favorite armchair. All of our books are produced with special care and originality.
