Max Milo

Founded in 2000, **Max Milo** publishes books with strong literary, theoretical, and human content, highlighted by an innovative, even provocative angle. To what end? Ideally, the dissolution of the bars of our social and mental prisons. And at worst, reflection.

- Reference essays (The Unknown, Free Voices, and Understanding collections), so that knowledge once again becomes the laboratory of transcending the past and anticipating the future
- Iconoclastic social documents that photograph and analyze the functioning of our society
- Acclaimed testimonials on taboo subjects, written by strong personalities and put into perspective by sociologists or psychologists
- A humor collection that combines finesse and philosophy
- Destinies of courage, a vision of the world that is both poetic and political

CONFESSIONS OF A FORGER

THE HIDDEN FACE OF THE ART MARKET

Forgeries are everywhere in the art world: museums, exhibition halls, galleries... The reason is simple: these masterpieces are made with the complicity of the masters themselves (sometimes), of the family of the artists when they are deceased (very often), of experts and gallery owners from all over the world (all the time). Eric Piedoie Le Tiec: 30 years of forgery and 10 years of prison. The "emperor" has made tens of thousands of forgeries, which have enriched a large number of art dealers.

GOVERNING BY CHAOS

SOCIAL ENGINEERING
AND GLOBALIZATION

How to become the masters of the world in the Internet age? The good old method of the pyromaniac fireman still works. Renamed social engineering, it consists in plunging populations into crisis and anguish to better centralize order and power in the hands of an oligarchy usurping the identity of the savior. In the 20th century, politics has moved from the art of persuasion to technical issues related to hacking minds and optimizing group management.

OPERATION Z

A sign of recognition on Russian tanks in Ukraine, the letter Z was used to designate the Russian operation in Ukraine. After the success of *Putin, the Master of the Game?* which explains the reasons for the war in Ukraine, Jacques Baud returns to the root causes of the war in Ukraine and the reasons that led Vladimir Putin to launch Operation "Z" on February 24, 2022. He explains how the conflict could have been avoided and the avenues that were neglected.
